

Ball valves with 3 pieces connections

Valvole a sfera con raccordi a 3 pezzi

Ball valves with 3 pieces connections Valvole a sfera con raccordi a 3 pezzi

These ball valves are degreased by an ultrasonic cleaning system and are supplied with brass three pieces connections and gaskets suitable to be used with medical gases.

All valves are made of chrome plated brass and available in different diameters from G 1/8" to G 3".

Le valvole di intercettazione di servizio sono valvole a sfera sgrassate in impianto ad ultrasuoni, complete di codoli a saldare con raccordi a tre pezzi in ottone e guarnizioni idonee all'utilizzo con gas medicinali.

Le valvole sono realizzate in ottone cromato e sono disponibili in diversi diametri tra G 1/8" e G 3".

Il raccordo a tre pezzi permette una tenuta ottimale e la possibilità di una agevole sostituzione della valvola stessa.

Metal boxes for the installations of service shut-off ball valves, different typologies available according to number of valves and diameters.

They can be installed externally or wall embedded.

Carpenterie metalliche di contenimento per valvole di servizio. Sono disponibili in differenti combinazioni a seconda del numero di valvole e dei diametri da installare.

Possono essere in versione da incasso o da esterno.

Ball valves with 3 pieces connections

Technical Data

SUITABLE FOR THE FOLLOWING GASES: O₂, N₂O, Air, CO₂ and Vacuum; N₂, Air/Nitrogen-800

MAX PRESSURE: see tables

WEIGHT AND DIMENSIONS: Vedi tabella

MATERIAL: Brass

BOX: white painted zinc sheet

DEGREASED IN ACCORDANCE WITH ISO 15001

STANDARD: ISO 7396, ISO 15001
